1-877-674-6060 /

Badger is North America's largest provider of non-destructive excavating services. Badger traditionally works for contractors and facility owners in the utility and petroleum industries. The Company's key technology is the Badger Hydrovac, which is used primarily for safe digging in congested grounds and challenging conditions. The Badger Hydrovac uses a pressurized water stream to liquefy the soil cover,

which is then removed with a powerful vacuum system and deposited into a storage tank. Badger manufactures its truck-mounted hydrovac units.
